

Working Capitol — Homepage

Work is Changing.

So why not choose a creative, modern environment to be the public-facing side of your business? Come see what we can provide your company.

The Capitol of Working Professionals in El Paso

Working Capitol's shared workspace is the perfect combination of office-environment and personal freedom. Free from the traditional office place scrutiny and the distractions of working at home, our shared workplace supports our society's new concept of work.

Just steps from El Paso's downtown, Working Capitol boasts bespoke amenities, integrated technology solutions, and a curated design experience. We are here to help businesses both in and out of town excel and better focus on their clients as well as grow their professional network. For employees looking for a professional environment where they are free to concentrate and work as they please, we have everything they need.

We offer a variety of flexible office space and co-working plans as well as a number of productivity based amenities to help accommodate the different styles of work in today's highly mobile and fast-paced work environment.

This Old Space is the Perfect Workplace.

History continues to be written at the old Studebaker Distributors. From the very beginning, our vision has been to preserve and restore a piece of El Paso's history and to further develop its story. Today, the Sergent-Folk Chevrolet Dealership, located at 311 Montana Avenue, has been reimagined into a modern, shared office space that provides the features, amenities, and conveniences that businesses need to succeed. We have preserved the old and complimented it with the new. See how the space has been transformed.

Get the benefits of a professional workplace without sacrificing the comfort and convenience of working from home or on the go.

At Working Capitol, we offer a WorkVirtual Plan that gives members unlimited access to the space and all of its amenities. It includes a physical mailing address so you're not publishing your home address. It also allows the modern facade of Working Capitol to become the public facing side of your business. The virtual plan includes 2 hours of free meeting space in either of our conference rooms. And the lounge will provide you a place to sit and work amongst our collective of entrepreneurs.

Interested in becoming a Working Capitol Member?

We encourage you to contact us with any questions you may have or to schedule a tour of our space. We'd be happy to show you each of our work areas and conference rooms. Oh and the restrooms are a must-see! You are also welcome to pop by anytime between 10-4PM, Monday-Friday.

Gardens Alive — Why Join Us?

More Ways to Grow Together & Share in Traditions

You'll find a welcoming, close and supportive team that shares in bringing joy, natural beauty and gifts to millions around the country and beyond. We think testimonials of current employees say it best, but here are the top 5 reasons to join that are important to us and make us a unique place to work:

- Empathetic Family Culture. We are family, first and foremost... You'll be part of an empathic and hard-working team that looks out for each other, and our leaders care for you. You'll have a chance to make real friends. (See our values below)

- Flexibility and Fun: Make an impact your way! You can make meaningful contributions to your team. There's flexibility and training without the micromanagement. We work with your schedule and encourage you to wear multiple hats and try new roles. It's hard work, but we do it with a smile and keep things in perspective.
- Pride in our Solutions that bring Joy and Natural Beauty to millions of people. We are unique—pioneers in organic gardening—with an expanding variety of high-quality plants and solutions for the garden, landscape, yard and everyday living (from roses, plants, edibles and shrubs to pest control, games, puzzles, home storage and beyond.)
- Making a difference for the world. Our organic products are good for the environment. As Founder Niles Kinerk has said about the impact of organic gardening: "I want my family to be able to eat good food, pesticide-free." Our innovation and commitment continue. Help us shape the future of gardening and landscaping.
- Growth Potential. You can grow and develop here, as leaders, taking on more responsibility as you desire while advancing professionally and personally.

Perks

Our positive, high-energy environment is built around work/life balance and appropriate incentives. In addition to competitive compensation, we offer benefits like:

- Tuition Reimbursement
- Healthcare Coverage
- Product Discounts
- Time Off
- Health & Wellness Programs
- Retirement Programs

Our Values Define Us

It's what makes us different. You may know our culture for its welcoming, personable family environment where you can build friendships and grow. But, at our core roots, these values guide us.

Fischer Electric — Service Page

CEILING FAN INSTALLATIONS

Working on your ceiling can be more difficult - and dangerous - than you think.

Anytime you are touching electrical wires or lighting in your home you run the risk of not just a safety issue but causing other electrical problems in your home. It is always wise to consult with a Seattle electrical professional for your own safety.

With a quick phone call to Fischer, we can schedule a time to come out and install the ceiling fan of your choosing. We recommend that you first choose the type of fan that you want, then email us a link to the product. We can consult with you about whether it is a good choice for your home and how long it would take us to complete the installation for you.

A ceiling fan can provide many benefits to a room in your home:

- In the summer months, ceiling fans create a breeze that cools down your Seattle area home. This can save you money on your HVAC bills.
- Ceiling fans also help to circulate the air in your home, preventing it from getting stale.
- In the winter months, the heat in your home will rise to the ceiling. Ceiling fans move that warm air back down, minimizing the burden on the furnace to keep your home warm through the winter.
- Ceiling fans also provide a great source of overhead lighting. They look great in most rooms and can be a smart way to add a decorative but also functional feature to your home.
- Consider adding a ceiling fan outdoors in your home. There are specific ceiling fans that can be installed on your patio area or porch which can enhance the outdoor living comfort in your home.

THE FISCHER DIFFERENCE

Fischer Electric is a great service provider for your Seattle, Washington area home for ceiling fan installations. Our licensed electricians ensure that everything is installed safely and according to the latest building codes.

Fischer Electric's certified electricians are professional, on-time, friendly, and experienced. We are a close-knit family business and we treat our employees and customers like family.

When Fischer comes out to install your ceiling fan our licensed electricians will be happy to take a few minutes and assess if you have any other electrical issues in your home that require urgent attention. Many homeowners in the Seattle area do not realize what the latest electrical codes are and may by local regulation require additional circuits or upgrades to their electrical panel. Our licensed electricians can very quickly educate you on anything that requires urgent attention in your home.
